

Creating Mnemonics

Polysyllabic words with unstressed vowels can often be tricky to spell as they aren't always pronounced exactly how they are actually spelt. A handy tool for learning words like this can be to create a mnemonic to help you to remember them.

Mnemonics can just use the letters in a spelling to create a memorable phrase, or you may want to create a little saying to help you remember a certain rule. For example:

animal

all **n**ature **i**n **m**y **a**wesome **l**and

definite

I saw a 'nit' in definite!

Can you create your own mnemonics for your other eight spelling words?
