## Year 5 Daily arithmetic W/C - 22.6.20

Each day, warm up your brain by having a go at 10 arithmetic questions. This should be a quick task and take around 10 minutes.
All of the questions for this week are related to multiplication and division. It is up to you to find the best methods to work them out. Some will require times tables knowledge, some you should be able to work out mentally in your head whilst some will need a formal written method.

Think carefully about the most efficient method.
