

Wider Curriculum Home Learning – Where in the world do people speak French?

For this week's home learning, we would like you to investigate where French is spoken around the world. You could:

- Create a map of the world showing the French speaking countries
- Create a poster about one of the countries
- Create a travel brochure persuading someone to visit those countries

Some countries you could investigate are – French speaking Canada, Reunion, Luxembourg, Morocco, Côte d'Ivoire and many more!

Challenge – Can you find out how many countries speak French around the World?
