

MATHS CHALLENGE

CHALLENGE 3:

Mo is reading a book.

- On Monday he reads $\frac{2}{5}$ of the book.
- On Tuesday he reads $\frac{1}{2}$ of the remaining pages.
- On Wednesday he reads $\frac{5}{9}$ of the remaining pages.
- On Thursday he reads the rest of the book.

Mo read **68** more pages on Tuesday than Wednesday.

How many pages are there in the book?
